## ABOUT VESTIGE

Established in 2004, Vestige Digital Investigations is the leading U.S. Electronic Evidence Experts company. The company was founded by forensically trained IT professionals and forensically trained attorneys with a deep knowledge and experience in the digital field that help to provide successful outcomes for our clients.

Vestige helps organizations **Identify, Investigate, Manage and Protect** the most vital digital resources. We do that through a robust set of inter-related services, including: **Digital Forensics, Proactive and Reactive CyberSecurity Solutions, and E-Discovery Services.** With 90% of the world's communication wrapped into digital form...we're the Experts organizations turn to in the digital forensics frontier.

## COME GROW WITH US

Vestige offers a dynamic and challenging environment for the right individuals. As Electronic Evidence Experts we are passionate about electronic evidence, the digital footprints that get left behind when individuals use electronic devices and helping organizations protect their data.

If you have a Bachelor's degree or higher, are extremely strong with technology, have an affinity for investigations and an interest in criminal justice and the law, we may just have the perfect destination for your career search.

Joining Vestige's team means growth — personal and professional! Vestige offers a progressive career path for those individuals looking to grow with us.
