

Vestige fully recognizes the importance of developing and supporting mutually beneficial channel partner relationships as a key component of success. We have a long history of supporting partners such as major law firms, insurance and Fortune 1000 companies to meet the most critical and demanding client needs. We're now uniquely positioned and moving ahead of other providers in meeting the demands of several emerging, rapidly growing markets, creating exciting opportunities for select partners across several segments.

Partner Benefits

- Increase new business revenues by differentiating yourself from your competition
- Gain additional revenues from current customers by meeting more of their related critical needs
- Sustain your higher revenues through reoccurring business
- Stabilize your revenues better through increasing customer loyalty and reducing turnover

Partner Advantages

- Market segment exclusivity available
- No territories
- Generous revenue incentive plan that grows with performance
- Marketing support
- Lead forwarding
- Full technical execution and support
- Market leading solutions
- Exclusive offerings that meet up-to-minute needs / demand with little to no competition

We also offer progressing levels of opportunity to select partners who validate our commitment to success through a consultative approach in understanding and meeting customer needs. Vestige is committed in enabling our partners to remain focused on their core competencies while allowing them to fully benefit from the unique market advantages our offering brings to their solutions.

Grow In A Rapidly Expanding Market With Vestige

Data Breaches are causing devastating damage to businesses daily. Millions of dollars are being lost per incident in the form of remediation expenses, lost customers and harm to reputation and confidence.

What makes Data Breach Issues so challenging is the ever evolving and expanding variety of exposures and causes within our modern, electronic environments. Use of multiple technologies and electronic devices, changing work behaviors and attitudes, as well as evolving business relationships are just a few of the diverse factors contributing to this challenge. The need to properly navigate these factors is high; however, present solutions in the marketplace are too limited and focus primarily on partial proactive steps such as compliance with regulatory standards. These traditional “compliance and audit” solutions fail to address the larger vulnerabilities that actually exist within a modern business environment that leave gaps for attackers to enter and breach systems.

Vestige is uniquely positioned as one of the few companies in the marketplace that offers both **Proactive & Reactive CyberSecurity Services**. We offer real world investigative experience and sophisticated expertise to help clients develop a proactive plan, install proper, comprehensive system controls, and provide continuous search services to detect active indicators, markers and red flags that attackers leave behind as they perform early privilege escalation. We are a trusted partner to major law firms and businesses because we understand the totality of the situation by understanding the entire scope of risk. They look to the Experts at Vestige to effectively prevent, detect, and respond to CyberSecurity threats.

Vestige has integrated through front line experience, the application of digital forensics, IT, private investigative and legal expertise required to deliver the Pre- and Post-Breach Solutions the market demands. We go the extra mile offering on-call services, determine cause, preserve evidence, ensure remediation is complete, serve as testimony experts, and provide recommendations to prevent/follow-on or mitigate future attacks. If you're interested in integrating these services into your long-term plan let's talk about how you can become a Channel Partner today.

Advantages of Vestige's CyberSecurity Solutions

- Offer the most comprehensive and relevant solutions for your space
- Expands your foothold in organizations by increasing the number of influencers you can solidify relationships with solutions that matter to more individuals within your client — IT, HR, Legal and C-Levels
- Position away from being viewed as a commodity by providing a critical and unique solution
- Increase customer loyalty and reduce the risks of displacement by competitors
- High level consultative sales support
- Full, turnkey solution execution provided
- Obtain a strong position in a rapidly growing market segment
- Create demand through awareness and better control your sales cycles through a proactive solution
