

In-House Legal, HR & IT

When it comes to internal investigations and CyberSecurity incidents, your departments are often called upon to rectify the situation. In our experience teamwork is the most effective solution as each of you hold a key to essential information:

LEGAL - understands the laws, but doesn't always understand technology

HR - has early visibility to staff issues but may lack expertise in technology and cyber law

IT - understands technology but is not as knowledgeable of legal requirements & HR

COMBINE YOUR EXPERTISE SO LEGAL, HR & IT ARE ON THE SAME PAGE

and be prepared to effectively handle improper use of company authorized digital devices, a cyber incident, compromise, or breach.
