Digital Investigations

Jade **Brown,** BA, C|EH, GCTI
CyberSecurity Analyst

Jade Brown joined Vestige Digital Investigations in 2020.

As a Cybersecurity Analyst she conducts CyberReadiness and Cybersecurity Maturity Model Certification (CMMC) Assessments, including completing a gap analysis and report of findings. She has demonstrated experience increasing, reviewing and updating of a System Security Plan (SSP) and Plan of Action and Milestones (POAM).

She assists clients in reporting on security controls and achieving compliance across multiple frameworks such as CIS Benchmarks and NIST 800-53. Jade is also knowledgeable of current and developing issues in Data/Asset Protection and System Hacking.

Jade previously worked at Vestige as a Data Evidence Specialist and has experience acquiring Electronically Stored Information (ESI) on digital devices from clients, opposing parties, and third parties.

She earned a Bachelor of Arts Degree in Linguistics from Ohio University in Athens, OH. She served as an Ambassador for the Taiwan-U.S. Sister Alliance (TUSA) and was a TUSA Scholarship recipient. The pattern-thinking style which served Jade well in subjects such as language acquisition, and political science enabled her to cultivate her interests in technology, cyber forensics, and threat intelligence.

She earned a Graduate Program Certificate in Computer Forensics from Utica College, in Utica, NY. She leveraged her Mandarin and cultural expertise as an active participant in cyberintelligence forums on Chinese information warfare, denial and deception, and state actors.

Jade went on to earn Certified Ethical Hacker (C|EH) certification from the EC-Council. She also earned GCTI certification through GIAC / Sans Institute for Cyber Threat Intelligence. Jade is a member of InfraGard's Northern Ohio Chapter.
