Taylor **Lampert,** BS
Forensic Analyst

Taylor Lampert is a Forensic Analyst at Vestige. As a Forensic Analyst he is responsible for securing, preserving, analyzing and reporting on Electronically Stored Information (ESI) from clients, opposing parties and 3rd party digital devices that have been retained by Vestige. This includes testifying in a court of law as a Digital Forensics Expert.

Taylor is from Johnstown, OH. He is a graduate of Gahanna Lincoln High School. He went on to earn a Bachelor of Science Degree in Digital Forensics from The University of Akron, in Akron, OH. He graduated in May of 2021. While at Akron he took numerous digital forensic courses applicable to his new position including forensics software: Autopsy, Access Data Forensic Tool Kit (FTK) imager applications, Linux, Prodiscover Basic, and Wireshark. Taylor was a member of the college's CAST Student Advising Club. He also worked as a Technology Advisor prior to joining Vestige.

 He joined Vestige Digital Investigations in 2021 as a Digital Evidence Specialist. In July of 2023 he was promoted to his current position, Forensic Analyst.
