

Nick **Ventura**, CCE, GFCA

Technical Sales Engineer, Vestige Digital Investigations

Nick Ventura brings extensive experience and knowledge to clients regarding Vestige Digital Forensic, CyberSecurity and ESI Services.

Formerly a senior forensic analyst he has conducted more than 400 forensic examinations as well as offering case management and technical expertise.

As a Vestige Technical Sales Engineer, he diligently works to build new and maintain current client relationships. He provides detailed product and service education, technical expertise, quotations, sales and offers exemplary customer service to Vestige clients.

Key responsibilities include business development, inside sales, speaking engagements, continuing education programs and tradeshow.

Nick graduated from Pittsburgh Technical College with an Associate Degree in Science with Information Technology (IT) with a concentration in Computer Forensics and Network Security.

He holds certifications as a Certified Computer Examiner (CCE) issued by the International Society of Forensic Computer Examiners, GIAC Certified Forensic Analyst (GCFA), Security+ and A+ Certified by CompTIA. He is also a member of the International Society of Forensic Computer Examiners (ISFCE)

Nick joined Vestige in October 2006.
