

Damon Hacker, MBA, CCE, CISA, CSXF

President & CEO, Vestige Digital Investigations

Damon Hacker is one of the founders of Vestige Digital Investigations, a leading U.S. Electronic Evidence Experts company specializing in Digital Forensics, CyberSecurity, and ESI Services. A pioneer in digital forensics, he brings more than 30 years of experience in the technology arena, including a background in IT Security and IT Auditing. He helps to improve the techniques, processes and technology in digital forensics and cybersecurity within the legal process.

Helping to shape this important and fast-moving industry, he is responsible for leading Vestige and overseeing corporate strategic direction and growth, finance and administration, as well as the sales and marketing functions in the company.

Damon is active in a number of professional organizations including:

- International Society of Forensic Computer Examiners (ISFCE)
- Information Systems Audit & Control Association (ISACA)
- Association of Fraud Examiners (ACFE)
- The Advisory Boards of a number of Digital Forensic Academic Programs

He has testified in both State and Federal Court as a Digital Forensics Expert, aired on the Legal Broadcast Radio Network, and has testified before the Judicial Conference of the United States on proposed rule changes to Civil Procedure that affect the Digital Forensics and litigation industries. He's been published in Inc Technology magazine, Smart Business News and Crain's Cleveland Business. In addition, Mr. Hacker also consults on digital forensics and cyber for the television industry, having consulted for The Blacklist; Bones; CSI: Cyber, CSI: Las Vegas, and Backstrom.

Damon is an in demand speaker on the subjects of digital forensics, IT security, IT auditing, computer fraud, white-collar crime, data breach, non-compete and intellectual property theft.

He earned both his Master in Business Administration from the Weatherhead School of Management, and his undergraduate degree from Case Western Reserve University. In addition he holds the Certified Computer Examiner (CCE) certification from the International Society of Forensic Computer Examiners, is a Certified Information Systems Auditor (CISA) and holds the CyberSecurity CSX Fundamentals certification from the Information Systems Audit and Control Association (ISACA).
