

Jordan Wyant, BS Data Evidence Specialist at Vestige

Jordan Wyant is from Mechanicsburg PA and joined Vestige Digital Investigations in 2020.

As a Data Evidence Specialist he responsible for acquiring Electronically Stored Information (ESI) on digital devices from clients, opposing parties, and third parties. The data is then preserved and/or prepared utilizing forensically-sound procedures for case analysis. Specialists are also responsible for safekeeping, managing and returning physical evidence belonging to clients, opposing side and/or third parties.

Jordan earned a Bachelor of Science degree in Digital Forensics from Bloomsburg University, Bloomsburg, PA, with a minor in Information and Technology Management. Jordan took numerous digital forensic courses applicable to his new position such as forensics software including Autopsy, Python, SQL and Visual Basic.

He learned teamwork, time management and communication skills as a member of the Bloomsburg University Dean's List, men's swim team (four years); and as president of the Student Athletic Advisory Club. He also worked for the university as a research analyst.
